Important Updates on AAA Club

Dear Parents,

We are excited to announce the resuming of the Afternoon Activities for Advancement (AAA) Club at GLS on **16th April 2025**. AAA is an extra-curricular program that is designed to enhance students' self-esteem and social skills while providing them with an opportunity to develop their talents and explore new interests.

These activities provide a range of benefits to students, including personal, social, and academic growth.

Personal Development: AAA programs offer students the opportunity to pursue their interests and passions beyond the classroom. Whether it's music, sports, drama, or community service, students can develop skills, confidence, and creativity by engaging in these activities.

Social Development: AAA activities help students build meaningful relationships with peers who share similar interests. Working together on a project or competing on a team can foster a sense of belonging, teamwork, and mutual respect. Additionally, participating in AAA programs can help students develop communication, leadership, and problem-solving skills that are valuable for success in any career.

Academic Improvement: AAA programs have a positive impact on academic performance. These programs can also provide opportunities for students to develop study skills, time management, and organizational abilities, which can transfer to academic success.

Overall, AAA programs offer a wealth of benefits to students, from personal and social development to academic success. By participating in these activities, students can enhance their skills, form meaningful relationships, and prepare for future success in all areas of life.
